

Centennial Awards Guidelines

Zontians should initially make themselves aware of the content of the PowerPoint document entitled '100 Years of Empowering Women' which is available at <https://membership.zonta.org/Tools/Centennial-Anniversary-Tools>.

100 Years of Empowering Women is the theme for our centennial anniversary.

To ensure visibility across the Zonta world, our **action motto is Honor and Empower**.

In addition to special **Centennial district, country and club awards**, there will be Centennial **Membership Awards**, Centennial **Local Service Awards** and Centennial **Fundraising Awards** to empower and honor achievements and excellence. More information about these will be provided in the future.

As an opportunity to strengthen or build relationships with like-minded individuals and groups, there will be awards presented by Zonta districts and countries to honor and empower people (or organizations) **outside** of Zonta who have made significant contributions to the empowerment of women.

These awards can consist of a certificate, both a certificate and perhaps yellow roses, a certificate and a donation, or whatever the organizers think is suitable. In any case, the award does not need to be a costly activity.

Districts may choose to make more than one award. For each Zonta country, there will be one award made. Zonta clubs are welcome to adapt the model and also choose to present an award in their respective communities.

Following are notes for the reference of districts and countries when deciding on recipients of awards and the presentation/s to recipient/s.

Whilst districts have autonomy in making decisions about their centennial activities, it is requested that the purpose of each category of award, as described in the following pages, is respected.
